### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Maryanne Armstrong on 5/7/04.

The application has been amended as follows:

#### ***In The Claims***

**Line 14, change "an binding" to - - - a binding - - - .**

**Cancel nonelected claims 5-16, without prejudice or disclaimer.**

#### ***Reasons For Allowance***

The following is an examiner's statement of reasons for allowance: the presently claimed method of screening libraries of artificial SH3 domain proteins formed by complete randomization of the variable RT-Loop corresponding to amino acids 69-74 Hck in order to generate artificial SH3 domain proteins, bearing no resemblance to natural SH3 domains, which have higher ligand binding affinity to its natural target than corresponding wild-type SH3 was not disclosed in the prior art of record and is unobvious since it represents an unexpected result as discussed by the 132 declarations of record.
